SUMMARY

I am dedicated to preserving history through adaptive reuse and historic preservation, and passionate about universal design and access. I bring a comprehensive skill set to every project, with seven years of experience in every element of the design process, including as-built documentation, programming, design documentation, project management and construction administration. My proficiency in conducting research and as-built documentation is complemented by an ability to write research papers, conservation statements, and design proposals.

PROFESSIONAL EXPERIENCE

Project Architect

Johnston Architects | 2022 - December 2024

- Assume project management responsibilities on all projects
- Provide construction administration services for multiple large projects
- Coordinate consultant drawings, models and specifications
- Lead client meetings and coordinate efforts between all parties
- Conduct as-built surveys and accessibility surveys
- Ensure quality assurance and quality control (QAQC) for internal documents related to accessibility and code compliance
- Focus on tenant improvement and adaptive reuse projects through all phases, including as-built documentation, community outreach, etc.

Project Designer

Johnston Architects | 2020 - 2022

- Carried out programming studies and community outreach for community center planning projects
- Focused extensively on renovations of existing buildings, especially construction documentation and detailing
- Conducted accessibility surveys and implemented necessary upgrades to ensure compliance
- Performed extensive site analysis and code research
- Managed multiple single-family projects

Architectural Design Intern

Johnston Architects | 2017 - 2020

- Worked on many projects from pre-design through to the creation of construction documents
- Focused primarily on single-family homes, generating ideas, drafting construction documents and coordinating with clients and consultants
- Carried out extensive site analyses and code research
- Advanced a single-family project from schematic design to the construction phase

EDUCATION

Master of Architecture

University of Washington, 2020

Master of Landscape Architecture

University of Washington, 2020

Master of Historic and Sustainable Architecture

New York University, 2015

Bachelor of Arts in English

University of Washington, 2014
